

Online **YAML** Parser

```
# Comments start with a '#'

# Scalars
string_value: Hello, YAML!
numeric_value: 42
boolean_value: true

# Arrays
fruits:
  - apple
  - banana
  - cherry

# Objects
person:
  name: John Doe
  age: 30
  occupation: Developer
```

Output

```
{
  "person": {
    "age": 30,
    "name": "John Doe",
    "occupation": "Developer"
  },
  "numeric_value": 42,
  "boolean_value": true,
  "string_value": "Hello, YAML!",
  "fruits": [
    "apple",
    "banana",
    "cherry"
  ]
}
```
